

Forestry in McLean Country

Two recreational trails grants were awarded by Governor's Office of Local Development (GOLD) totaling \$30,000 in matching funds. These funds are being used to mark existing trails, create new trails, add directional signage, maps, etc.

The Forestry Grant is being used to develop interpretive displays, a nature facility and an outdoor classroom education website and printed materials.

- [TREE INVENTORY IN MYER CREEK PARK](#),
a listing of plants and trees located in Myer Creek Park, GPS coordinates, photos and information about that type of tree or plant.
